Dear Sirs,

I am asking you to accept, for consideration, this real documentation instead of that that was registered on 08/26/2002. Both documentations describe the same item, but the earlier version contained a lot of extra information.

The real documentation consists of 9 pages:

Pages 1,2,3,6,7,9- descriptions and photos

Pages 4,5,6,8- drawings

I also include a check for \$375 as well as the sample of my product, which is produced by the drawings. In addition, I include the drawings of the previous inventions the inventors of which were also interested in the same issue.

Sincerely, Anatoliy Rudenko
